IN THIS EDITION

* Recent News
* Mudsmith stock
* Gauge Wheel sizes
* New Products
* New Workers
* On-line Shop
* Pricelist-Updated
* The Usual Stuff

Hello readers, we have good news for our South Australian customers. Our parts depot at Pinery SA will be open by the time you get this newsletter. Our purpose-built container has arrived on site and the guys are currently stocking it with product including, non greasing pivot bush kits & gauge wheel axles, discs, bearings, press wheels, gauge wheels, etc. Everything you need to get you out of trouble or upgrade during sowing.

The process is simple, give us a call 02 6033 0744, we will provide you with an address and a code to access the container. Follow the ordering procedure as stated on the order book inside and Bobs your uncle, easy. 😊

Mudsmith Spoked Gauge Wheels are back in stock

Our stock of Mudsmith Gauge Wheels has finally arrived.

Limited quantities available of both 3” and 4 ½” complete spoked gauge wheels.

We also have Mudsmiths new gauge wheel tyres in stock both 3” and 4 ½”.

Interchangeable with JD rims

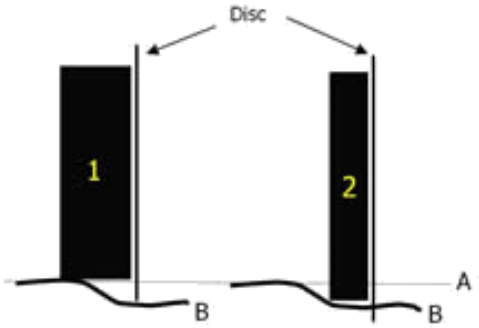
Feb 2023

Narrow or Wide? – gauge wheels

There are several factors to consider when choosing gauge wheels, spoked, closed rim, narrow, wide?

Narrow gauge wheels are better suited to inter-row sowing, reducing ground compaction, good trash flow and better contour tracking (see comparison below). They can however be prone to bounce. On the other hand wide gauge wheels tend to be less affected by bounce, they perform well in wet/soft conditions, have good flotation. Spacing should also be considered when factoring gauge wheel choice as we all know, there isn't much room under there for access.

Spoked gauge wheels have been around for some time now and are the style of choice for most. The open rim allows for less plugging of mud and the bearing housings are much stronger than their predecessor.



As you can see from the illustration above, the narrow gauge wheels offer better surface tracking than their wide counterparts.

Our new batch of Mudsmith gauge wheels have 20% increase in the lifespan of their tyres

New Products

Two new products in this edition, our very own Aricks Anchor clamp and Disc hub. Heavy duty, tough, cost effective and built to last.

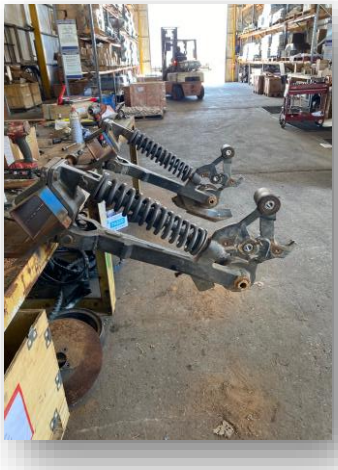
Meet Logan & Aart

Logan is the eldest son of Colin and Jacqui and comes to us from the Australian Defence Force. Logan served time in the 5RAR Infantry battalion in Darwin before coming back to Corowa to work fulltime for Aricks Australia. He is currently working in our onsite maintenance and assembly areas.

Aart is a backpacker from the Netherlands who is currently working with us during our on site maintenance season. Aart will be with us for a few more months then will be moving on for more Australian adventures.



2ND Hand Openers

Did you know we buy and sell 2nd hand openers? We salvage and fully rebuild the openers using new parts then offer for sale to those interested in respacing their machines. If you have some openers you would like to offload, give us a call to discuss 0260330744.

Very limited supply available

For sale

One of our customers in WA has a couple of older fabricated Aricks residue managers for sale if anyone is interested in trialling these. Call Michael on 0419900107

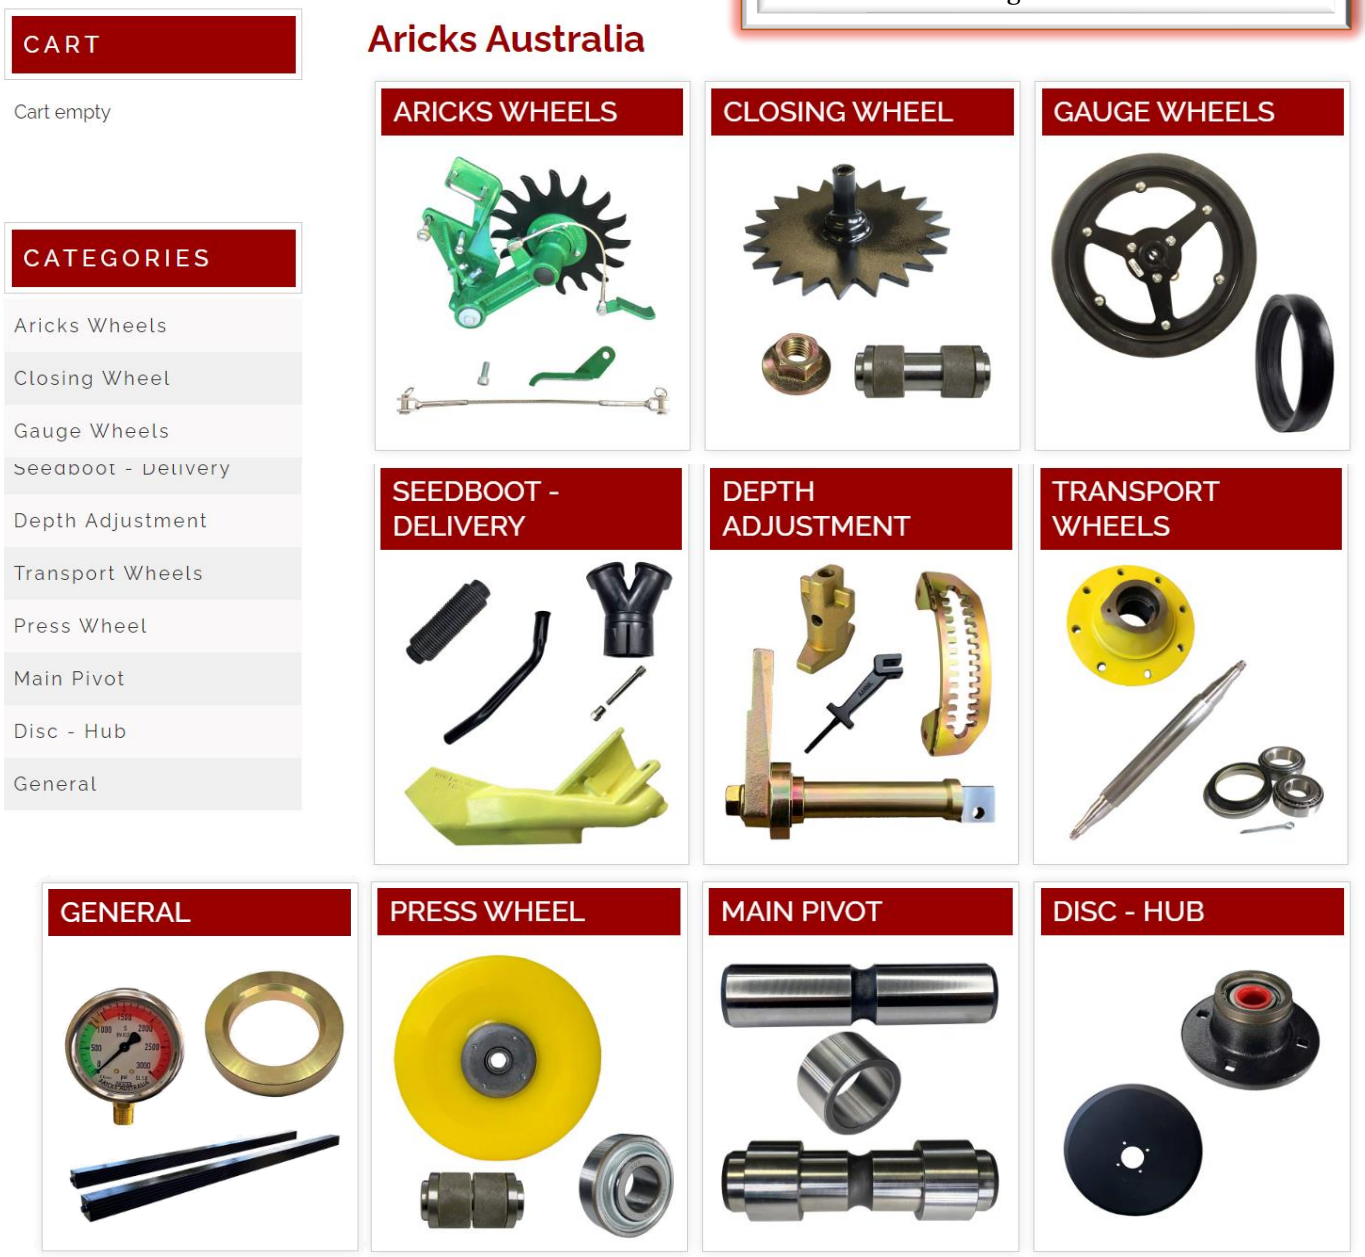
Our online shop is now live

Click image below to visit



We've succumbed to the pressures of modern life and now offer an online shop. The process is simple, add items to your cart, fill in your details, then checkout. No payment is necessary at this stage, we will contact you with a freight quote for your order, if agreeable we will then email you an invoice for payment. We also take payment over the phone if your order is urgent.

Parts Range

We are slowly increasing our aftermarket product range to help make your machine as reliable as we can. We don't intend to stop there either. If you have an issue with the longevity of a JD product on your 1590, 1890 or 1895, let us know and we will see if we can help.

We all get our fair share of unwanted emails and its annoying, so if you do not wish to receive our newsletter, please reply to our email with the words UNSUBSCRIBE.
