aricks australia

Hello readers, we hope you are having a productive year and keeping dry. Our recent weather has been challenging for quite a few and our fingers are crossed for you as we head towards warmer weather. Along with the weather woes, the Foot and Mouth emergence, bee viruses and the like, it's a hard slog to try and make a living off the land.

Shipping congestion is an issue that continues to plague us. No matter how far forward we plan, we find ourselves behind the eight ball continuously.

IN THIS EDITION

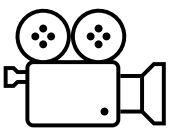
* The Usual Stuff

Vale William Ernest Wemyss

Our managing director Colin recently lost his father Ern. Ern was a big part of our business having been around since we started in 1996. Ern was a third-generation farmer having owned land at Rennie for a most of his working life. After retiring mid ninety's Ern moved to Corowa where he purchased himself a little shed for all his tractor projects. Fast forward a few years and BPR Engineering PTY LTD official set up shop in Erns little shed and remain here to this day. Ern built himself a brand spanking new shed behind us and set about adding to his restored tractor collection.



If you click on the camera adjacent you can access footage to some of Erns tractor collection by way of a procession leading his funeral.

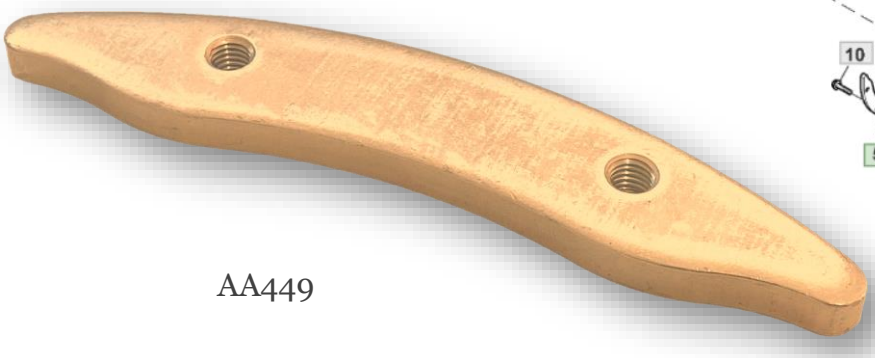
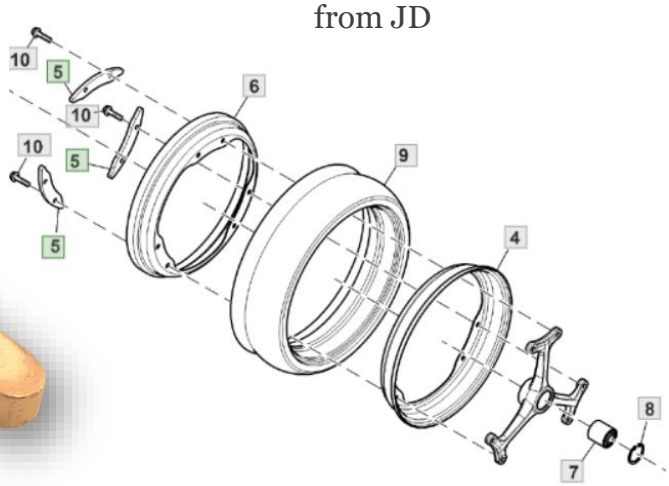
AA449 replaces item 5.

Current retail price $98.19 plus gst each from JD



AA449



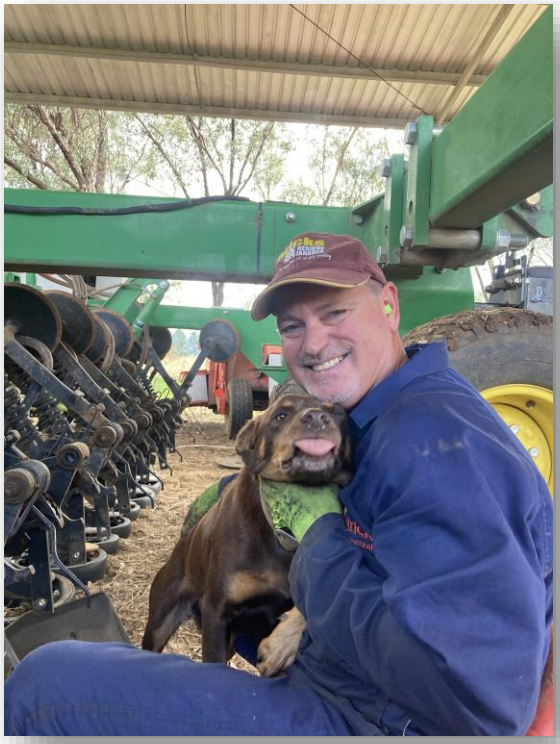
New Company position - Customer Liaison

Time for a change:

Damo has been a hard-working, hands-on employee for a few years now and certainly earned the label of outstanding employee. We decided it was time to give him some more freedom and promote him to the position of Customer Liaison.
In his new role, Damo will be travelling the countryside and offer free inspections and appraisals on JD Disc seeders. He has already completed a trip to South Australia and Western Victoria with great success and met plenty of interesting folks along the way. This new role will enable us to structure a forward plan and coordinate logistics and meet the needs of our customers, particularly those in close proximity to one another.

Follow us on twitter where we will announce regional visits in advance.

This is a no obligation free service.



Note: the dog in this photo was a willing participant and not harmed in any way, Damo is not choking it.

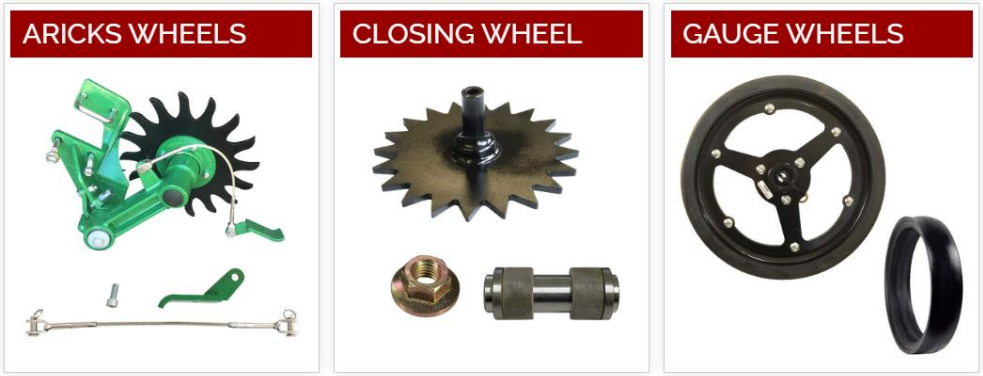
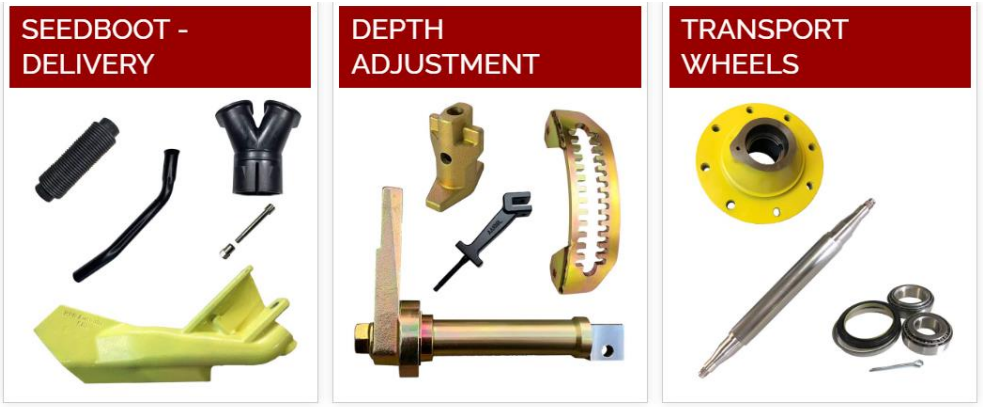
Aricks Australia





South Australian Depot – coming soon

That's right folks, one of our amazing customers in SA has come on board and will soon be hosting an Aricks Australia micro store. We aim to have this up and running in the coming months with essentials including, discs, axle kits, bushing kits, closing wheels, seed boots, gauge wheels, bearings, etc.

Stay tuned to our twitter page for important announcements and timeline updates.

Parts Range

We are slowly increasing our aftermarket product range to help make your machine as reliable as we can. We don't intend to stop there either. If you have an issue with the longevity of a JD product on your 1590, 1890 or 1895, let us know and we will see if we can help.

We all get our fair share of unwanted emails and its annoying, so if you do not wish to receive our newsletter, please reply to our email with the words UNSUBSCRIBE.
